Rear Admiral Newton A. McCully is shown here with the seven Russian children he has brought home for adoption. "Three more coming on a later ship, too," he says. The admiral is a wealthy bachelor. He has just returned from Sebastopol, where he was U. S. high commissioner. When the ship stopped at Ellis Island, the seven tots were ordered excluded from the country on the ground that they "might become public charges." McCully said: "We'll see about that." He got busy at Washington and the children were ordered admitted. McCully's niece, in charge of his Washington home during his absence, will help him take care of the children.

Financial Weakness of Other Countries Bars Placing of Orders Here

WASHINGTON, Jan. 10.—Better trade conditions between the United States and South America and the Far East cannot be expected until low rates of exchange and labor conditions in foreign countries have been improved, according to a summary of world business made public today by the department of commerce. The statement was the first of monthly summaries the department will issue. In practically every country of South America and the Far East imports have fallen in the last few months and money has become very hard to obtain, cablegrams to the department said.

## ORIENT IN BAD SHAPE

The Japanese financial condition is most "unsatisfactory," Commercial Attaché James F. Abbott, cabled from Tokyo and he predicted a severe drop in the Japanese exchange rate. Mr. Abbott reported banks have tightened the money market by raising rates. Japan, he said, finished the year with a large balance of trade against her and there are large stocks of unsold goods in warehouses. The general stagnation of business, he said, has brought about a situation which will result in the cutting of wages.

Failure of many business houses in China, he foreseen by Commercial Attaché Julien Arnold, at Peking, who cabled that the ancient Chinese custom of paying all debts on the new year, February 5, will force many places to close.

Low exchange rates has resulted in an overstocked market in India, according to Commissioner C. C. Bachelder, at Calcutta. He advised American business houses to exercise care in granting credits.

Reds and Socialists, However, Control Senate by Election Returns

PARIS, Jan. 10.—Complete returns from Sunday's elections to the French senate show gains for the Center of Moderate parties, most of the Extreme Right and Left losing seats. The conservatives of the Right elected three senators as against their present representation of eight, while the radicals elected forty-three as compared with their present fifty-four senators. The results for the ninety-eight seats contested, were as follows: Conservatives 3; Republicans 33; Radicals and Socialists 43; Republican Socialists 11.

The returns from two districts, those from the Reunion and Guadeloupe islands, have not yet been returned. The United Socialist party and the Communist party failed to elect a single candidate.

The elections in which one-third of the senate seats were filled, strengthened the position of the government, according to the Echo de Paris, all members of the ministry, with the exception of Henri Richard, minister of agriculture, being elected.

become very tight. Commercial Attaché G. Freely, at Buenos Aires, reported, December failure, doubled those of the same month in 1919, and many others were threatened, he said.

In Chile, both exports and imports were reported to be decreasing and the exchange rate is unimproved. Great care should be exercised in granting credits, the department was advised.

Venezuela was reported as still in the midst of a financial decline. Commissioner Belle cabled that the face of the unfavorable financial situation, are establishing agencies in Venezuela.

Commercial Attaché Carlton Jackson reported that many business failures were expected in Mexico and that the money market is unfavorable. He asserted government finances were unimproved, the cost of living was increasing, and lowering of wages had been dropped, while the money market has

W. U. Says State Department Forebade Cuba to Allow Landing of Line

WASHINGTON, Jan. 10.—Charges that the state department was "making threats against the Cuban government," to prevent the issuance of permits for Western Union cable landings on the island, were made before a senate committee today by Newcomb Carlton, president of the Western Union company.

Mr. Carlton declared the department was "pursuing to the point of persecution" its differences with the company over the attempt to land the cable from Barbados, which he said, would establish a new line of communication with South America.

Questioned as to alleged supervision by English authorities of official dispatches sent from Washington to American diplomatic representatives in Great Britain, Mr. Carlton refused to "answer categorically because it would make trouble." The witness said the state department had the facts and Senator Kellogg, chairman of the committee, asked under Secretary of State Davis to appear this afternoon.

Frederick Roy Martin, acting general manager of the Associated Press, told the committee that any increase of communication facilities aided the dissemination of American news.

The Associated Press is furnishing its news reports to Porto Rico, Hawaii, Alaska and Mexico, he said, "and has gone very extensively into South America. Our reports on the Pacific are sent by radio and incidentally copied for free distribution to Japan and China. This is an unprofitable field and we are keeping it up for patriotic motives to maintain the connection between the United States and its possessions."

South American readers, Mr. Martin said, desired news from the United States and the only difficulty in service was in the lack of cable facilities. Senator Kellogg asked if the government could assist news distribution.

"Only by facilitating private interests in extending cable facilities," Mr. Martin replied. "The Associated Press does not want any government subsidy. We should like to see direct cables to Italy and the Scandinavian countries."

"We have had our troubles with government censorship during the last few years. I wish our country had no narrower than our own. Only last Saturday we found that the navy department was censoring a dispatch from San Francisco."

It has been a keen disappointment to us to find that American cables to South America could not give us sufficient facilities, and we have been forced to contract with the English Western company at London, to carry a million words a year to our South American papers."

General T. Hargraves, representing the Universal Service, said lack of facilities limited press service and also told of difficulties encountered in reaching South America.

DOUBLE ATTACK  
IN DUBLIN FAILS

Army Officers and Woman in Auto Fired on Twice From Ambush

DUBLIN, Jan. 10.—A sensational attempt was made this morning to assassinate two officers who, with the wife of one of them, were riding in a touring car in the outskirts of Dublin. The car was riddled with bullets but the driver speeded up and escaped with his passengers to Dublin castle. One of the officers was wounded.

Two attacks were made on this car, the first at Charlemont bridge, a mile from the heart of the city. Eight men subjected the machine to fusillade of revolver shots, according to the authorities, and one of the attacking party mounted the running board and twice fired point blank at the woman in the machine. The bullets passed through her clothing but she was not wounded.

The car raced away, but shortly afterward a car was driven across the road and when the car slowed down a number of men who had laid an ambush opened a hot fire. The car again escaped and reached Dublin castle, badly smashed by bullets. The identity of the occupants has not been disclosed.

## PEACE HOPES BLASTED

LONDON, Jan. 10.—Conferences between the Rev. Michael O'Flanagan, acting president of the Sinn Fein, and Premier Lloyd George with a view to bringing about peace in Ireland have been broken off and will not be resumed, says the Daily Mail. Before Father O'Flanagan returned to Ireland on Friday night he had a long conversation with the premier, and the outcome is said to be described in official quarters as "not as satisfactory as could be hoped."

Peace negotiations have not altogether broken down, the newspaper adds, but Father O'Flanagan will not be a party to further exchanges.

Moulder in Car Shops Doesn't Think It Belongs to Him

MILWAUKEE, Wis., Jan. 9.—John Wagner, said to be a comparatively poor man, a moulder in the West Milwaukee car shops, today turned his back on a fortune of \$500,000 willed to him, he was notified, by a woman whose life he is reported to have saved 30 years ago.

"I am sure I am not the person referred to in the will," he said.

Relative and friends say they remember the incident of the will, but that Wagner suffered a sunstroke a few years after the deed which rendered him incapable of his memory.

Wagner, who is 51, under the name of John Stein, according to relatives and friends, saved Mrs. Otto Burlingame from drowning in the Mississippi river near their home at Rock Island, Ill., about 20 years ago.

The variance in names was explained by relatives. Shortly after his father died, when his mother died, he took his stepmother's name, Stein, and was known by it in Rock Island until his marriage.

The will names John Stein, as the boy who rescued Mrs. Burlingame, of Buffalo, N. Y., when she was a girl.

"MR. HENRY PRUSSIA"

BERLIN, Jan. 10.—"No royal highness in Germany now," said a post-office employee as he handed back a letter addressed to "His Royal Highness Prince Henry of Prussia." "How shall I address it?" the woman asked. The official reply was "Mr. Henry Prussia."
